

From the Desk:

It is a matter of happiness that NFMP is ready with the first quarterly report of the year 2020. This quarter has been very crucial for NFMP as we were closing the first year of the implementation phase. It is heartening to see the progress all around and also many office buildings put into operational mode. I am pleased to state that NFMP successfully conducted meetings of the General Body and also the High Power Committee.

As, we all are aware the impact of pandemic due to COVID-19 being felt during the month of March 2020 onwards, the NFMP continued to work uninterrupted. The challenge caused by COVID-19 has necessitated the use of digital medium for communication and meetings.

I do hope that in the coming years, NFMP will be able to absorb the impacts due to COVID-19 and project will be able to achieve all targets affectively. I take this opportunity to thank PMU members who kept working notwithstanding the lockdown due to COVID-19. PMU expresses its sincere gratitude to DMU Heads, FMU Heads and all stakeholders including JFMC members for working with utmost sincerity for the success of the project.

*Shri Dharmendra Prakash, IFS
Chief Project Director,
Nagaland Forest Management Project*
